

# The Digital Revolution in Agriculture

[We are Live! →](#)

✓ We're thrilled to announce that the **GoAgro platform** is now live and operational. Our commitment to transforming agriculture is now a reality, and we invite everyone to be a part of this journey.

## PIG NFT Stage 1

By purchasing an NFT, you're investing in the future of pork production, with each token representing 100kg of pork that grows by 3% each year.

## Introduction

GoAgro is a pioneering platform designed to revolutionize the agricultural sector. By seamlessly integrating technology with farming, GoAgro offers a unique space for farmers and investors to collaborate, innovate, and thrive.

### Our Mission

To reshape the agricultural sector through digital innovations, fostering collaboration, growth, and prosperity for all stakeholders.

### Our Vision

To emerge as a global leader in digital agriculture, setting new standards for sustainability, innovation, and collaboration.

## Problem

In today's digital age, both farmers and investors grapple with challenges related to transparency, efficiency, and direct connectivity. Traditional models often fall short in addressing the dynamic needs of modern agriculture.

## Solution

GoAgro addresses these challenges head-on. With blockchain integration, GoAgro ensures unparalleled transparency and security for every transaction. Moreover, our upcoming marketplace will empower farmers to sell their produce directly to consumers.

## About Team

Based in Osijek, Beyondi team stands at the forefront of blockchain development and innovation. Our projects have garnered attention from global media outlets such as Entrepreneur, Bloomberg, Business Insider, Forbes, and Yahoo Finance. With over 300,000 active users and more than 20M EUR+ in investments, Beyondi continues to set industry benchmarks.

## GoAgro

## What makes GoAgro stand out...

### An intuitive and user-friendly platform

Makes it easy for everyone to participate in the growth of the agricultural sector.

### Integration of blockchain technology

Maximum transparency and security of every transaction.

### Transparency and growth

Carefully selected investment opportunities that directly support farmers and agro-industry.

### Upcoming marketplace integration

Allows farmers to sell their products directly to consumers.

## For All Agricultural Projects

Whether you're a small-scale farmer or a large agricultural enterprise, GoAgro is designed to support and elevate all agricultural projects.

### Join Us

We invite all investors, farmers, and interested parties to join the GoAgro platform and co-create a sustainable digital future for agriculture.
